# 100ft Folding Container for Campsites

What is a fold container house?

The fold container house is a modular building constructed from prefabricated modular containers specially designed to fold and unfold. This unique feature allows for easy transportation and rapid assembly, making them ideal for a wide range of temporary or moveable housing needs. Generally speaking, 3 workers can install at least 100 sets in 5 days.

Are fold container houses eco-friendly?

**Sustainability:** Reusing prefabricated fold containers for housing reduces waste and the need for traditional building materials, making fold container houses an eco-friendly option. **Flexibility and Modularity:** Fold container houses can be easily modified and expanded to meet changing needs.

What are the advantages of a prefabricated folding container house?

This prefabricated folding container house has an advantage of quick assembly, convenient storage and transportation, with excellent features of heat preservation, fireproofing, waterproofing, cold-proofing, corrosion prevention, water tightness and air tightness. The whole structure is connected by hinge, hasp and other flexible components.

What is a foldable container?

Foldable container is a square design which increases over 4% space compared with traditional structure. All production finished in the factory, direct field use which will reduce over 90% construction waste. The foldable container is a good choice whether it is used as a residential house or an office. Robust, safe and affordable.
