# 10MWh Smart Photovoltaic Energy Storage Container for Livestock Farming

What is a 10 MW solar farm?

A 10 MW solar farm is being built in the United Arab Emirates. The farm will cover an area of 26 hectares and is expected to produce enough electricity to power 3,500 homes. The project is being developed by a consortium of companies including Abu Dhabi National Energy Company, JinkoSolar, and First Solar.

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is HJ mobile solar container?

The HJ Mobile Solar Container comprises a wide range of portable containerized solar power systems with highly efficient folding solar modules, advanced lithium battery storage, and smart energy management.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
