## 3W 5W solar water pump

What is a 3 hp solar water pump?

On grid 3 HP solar water pump is a grid tied water pumping system. In this system, the solar pump can be powered by direct solar energy as well as the government grid. If the solar panels generate more energy than the 3 HP solar pump's consumption, the excess power is exported to the grid via net metering.

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

What is a solar-powered water pump?

The solar-powered pump is a wonderful technique for providing water to isolated locations that are both environmentally and socially beneficial. Solar pumps are more popular among farmers and are used to irrigate agricultural land and horticultural fields.

How to use a solar water pump?

The Sunbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.
