
Anti-reflective solar glass distributor in Manchester UK

Who makes flat solar mirrors?

AGC is the leading manufacturer of flat solar mirrors, with years of proven expertise. As a fully integrated company, AGC offers a full range of products dedicated to CSP applications: from sand and low-iron float glass substrates made by our highly specialised float glass plants to high-end solar mirrors. Maximum energy efficiency

Who is AGC Glass Europe?

As the European branch of AGC, a world leader in flat glass, AGC Glass Europe has over 100 sites throughout Europe and around 15,300 employees. Solar systems for use in energy generation, such as photovoltaics (PV) and concentrated solar power (CSP), are a fast-growing market with enormous potential for reducing CO2 emissions.

What is solar control glass?

Today's technically advanced solar control glass products are here to help. We provide a range of glass options specifically designed to control the amount of heat and light that passes through the window. These solar control glass options are perfect for sealed units in windows on south and south west facing elevations.

Why should you buy solar control glass?

The low solar heat gain properties help to reduce internal overheating, and subsequently reduce associated air-conditioning requirements. Buy the best solar glass for your office, home, school, university or any other building from the No.1 manufacturer of solar control glass in the UK.

Our range of solar glass products is designed and optimised to suit the requirements of various solar technologies with properties such as high solar energy transmittance, strength and ...

Our reflective solar control glass features an advanced reflective coating that is both durable and aesthetically pleasing. The coating reflects a significant portion of solar radiation, ...

Solar control glass is a product developed to allow sunlight to pass through a window or facade while radiating and reflecting away a large degree of the sun's heat. The indoor space stays ...

For the discerning homeowner, we offer a range of replacement conservatory glass in various shades all of which offer varying degrees of solar protection and energy efficiency, ...

Customisation and Quality What truly sets Diamond Coatings apart as a premier reflective glass supplier focused on anti-reflective solutions is our commitment to ...

AGC offers extra clear float glass products for a broad range of solar applications. Your single source: High-efficient float glass production, ...

Solar control glass is a product developed to allow sunlight to pass through a window or facade while radiating and reflecting away a large degree of ...

A solar control glass is a glass with a special coating designed to reduce the amount of heat entering a building. It reflects and absorbs heat as well as filtering light for reduced ...

AGC focuses on the industrial production and distribution of ultra-low-iron solar float glass with a highly robust and durable anti-reflective coating, such as Sunmax Premium HT. We specialise ...

We can supply either one side or two side Anti reflective coated. Anti reflective (MLAR) coatings will reduce the reflectance of plain glass by about 9 times to less than 0.5% ...
