
Belgian monocrystalline solar panel company

Who makes solar panels in Belgium?

By offering comprehensive services from design to installation, Soltech ensures that its clients benefit from the full potential of solar energy, making it a standout manufacturer in Belgium. Energys, located in the heart of Flanders, is renowned for its innovative approach to solar panel technology.

Does Belga solar install solar panels in Belgium?

Belga Solar works with its own installers throughout Belgium. You benefit from a turnkey installation with Belgian solar panels, guaranteed for 25 years, offering optimized performance even in the Belgian climate. Are you a photovoltaic installer?

Who is Belga solar?

Belga Solar is much more than just a manufacturer of solar panels. Since its creation, the company has established itself as a key player in the Belgian photovoltaic market, combining technological innovation, local production and a strong environmental and social commitment.

How does Belga solar work?

At Belga Solar, each photovoltaic panel undergoes 6 stages of control before being put on the market: This process guarantees high-performance solar panels with no internal defects, optimized for stable, sustainable green electricity production over at least 25 years.
