
Croatia Battery Energy Storage Power Station Project

Who owns a power station in Croatia?

All power stations in Croatia are owned and operated by Hrvatska elektroprivreda (HEP), the national power company. As of 2015, HEP operates 26 hydroelectric, 4 thermal and 3 cogenerating power plants with the total installed electrical power of 3.654 MW.

Will EBRD project help Croatia achieve decarbonisation & energy independence?

The EBRD said the project will contribute to Croatia's goals of decarbonisation and energy independence by reducing reliance on fossil fuels and improving energy system stability amid rising renewable generation.

How will a digital VPP platform help Croatia's green transition?

The facility will enable real-time balancing of electricity supply and demand through the deployment of a digital VPP platform, enhancing Croatia's grid flexibility as it expands its solar and wind power capacity. "This investment marks a milestone in Croatia's green transition," said Miljan Zdrale, EBRD director for Central Europe.

How much money has the EBRD invested in Croatia?

The EBRD has invested more than EUR5bn in 273 projects in Croatia to date, focusing on supporting reforms, leveraging EU membership benefits, and modernising public-sector enterprises.

EBRD invests EUR16.8 million in Croatia's first grid-scale battery storage and virtual power plant project to boost the renewable energy integration.

EBRD invests EUR16.8m in Croatia's first large-scale battery storage and virtual power plant - its first equity stake in standalone merchant Battery Energy Storage System ...

The EBRD is investing EUR16.8 million in Croatia's IE-Energy Projekt to develop a 60 MW battery energy storage system and virtual power plant in Sibenik.

IE Energy, a Croatia-based energy storage operator, is set to build a 50 MW storage project, after securing EUR19.8 million from the ...

The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of up to EUR16.8 million in IE-Energy Projekt, a newly established ...

Singapore has surpassed its 2025 energy storage deployment target three years early, with the official opening of the biggest battery ...

Independent power producer EDF Renewables North America has signed a 22-year power purchase agreement with utility NV Energy for a 200MWac solar project coupled with a ...

Project Impact The development will facilitate the installation of up to 60 megawatts of grid-

connected battery storage capacity and the implementation of a VPP platform, enabling ...

As Croatia accelerates its transition to renewable energy, understanding the price dynamics of power station energy storage systems has become critical. This article breaks down current ...

ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. This project is ENGIE's third battery storage ...
