## Doha solar Module Project

Will Qatar build a solar plant in Dukhan?

Qatar invests in renewable energy, building a solar plant in Dukhan. (Credit: QatarEnergy)  
Qatar's future is looking solar with a new solar plant project on the way. The country's first large-scale solar power plant, Al-Kharsaah Solar PV Power Plant, covers an area of 10 square kilometres.

Will Qatar's new solar power plant double its solar capacity?

The new solar power plant is expected to double Qatar's solar capacity by 2030. The project will elevate Qatar's photovoltaic solar power production capacity to 4GW. Credit: QatarEnergy.  
Qatari state-owned petroleum company QatarEnergy has unveiled plans to build a new 2GW solar power project in Qatar's Dukhan area.

Who is building a solar power plant in Qatar?

State-owned petroleum firm QatarEnergy has awarded a contract for the construction of the 2,000MW Dukhan solar power plant. The agreement was signed between the client company and South Korea's Samsung C&T, about 80 kilometers west of Doha. The plant will double Qatar's solar generation capacity once completed.

Does Qatar need a solar power plant?

Qatar's future is looking solar with a new solar plant project on the way. The country's first large-scale solar power plant, Al-Kharsaah Solar PV Power Plant, covers an area of 10 square kilometres. The 800 megawatt (MW) plant was inaugurated in October 2022 to support Qatar's electricity demand for FIFA World Cup Qatar 2022(TM).

Discover Qatar's major step in its energy transition with the new 800 MW Al Kharsaah solar power plant, a key project advancing its 2050 net-zero goals.

Al Kharsaah was a significant milestone as the nation's first large-scale solar power project, adding 800 megawatts to the national grid. The energy landscape is set to ...

Qatar's future is looking solar with a new solar plant project on the way. The country's first large-scale solar power plant, Al-Kharsaah ...

The Al Kharsaah solar power plant can supply 10% of Qatar's peak power consumption, thereby contributing to the country's sustainability roadmap.

The country's first utility-scale solar photovoltaic (PV) facility is a project that is to proud of. The 800MW Al-Kharsaah solar independent power producer project, has been ...

The project will elevate Qatar's photovoltaic solar power production capacity to 4GW. Credit: QatarEnergy. Qatari state-owned ...

Qatar's first utility-scale solar photovoltaic (PV) facility, the 800MW Al-Kharsaah solar

---

independent power producer project, has been ...

Discover Qatar's major step in its energy transition with the new 800 MW Al Kharsaah solar power plant, a key project advancing its ...

Yellow Door Energy partners with GWC for a major solar project in Qatar. Discover the 5MW solar plant set to cut 3,500 tonnes of CO2 annually.

The Al Kharsaah solar power plant can supply 10% of Qatar's peak power consumption, thereby contributing to the country's ...
