## E series pack battery

What is epropulsion E-series battery?

Page 6 1 Product Overview ePropulsion E-Series Battery is a lithium iron phosphate battery with good safety performance, high energy density, long cycle life and high reliability. E-Series Battery includes two models, E60 and E163, with a nominal voltage of 51.2V and a capacity of 60Ah and 163Ah.

How do I use the epropulsion E Battery remote switch?

When using an ePropulsion E battery remote switch, please connect the remote switch with the CAN-IN port according to the following figure, then operate the remote switch. Page 16 Please read the following notices before charging: Please use the ePropulsion charger specially designed for E-Series Batteries to charge the battery.

Which lithium battery pack is supported?

(OEM & ODM lithium battery pack from 7.4V~960V are supported, and provided technical support service, just feel free to CONTACT US) We provide customized lithium battery pack according to the requirements, OEM & ODM from 7.4v-960v are supported.

What should I do if my E51 battery is not charging?

Page 21 E51/ Charge/discharge over temperature 3. If the temperature is too low, please use the battery at an appropriate temperature. 4. If the fault persists, please contact an authorized ePropulsion dealer. 1. Stop discharging. 2. Charge the battery. Discharge undervoltage 3. Page 22 1. Disconnect all connections to the battery.

China Battery Pack catalog of High Performance Li-ion Battery Pack for EV, Hev, E-Pow, Battery Management System (BMS) for Energy Storage System (ESS) provided by China ...

The chemistry of E-Series batteries is LiFePO<sub>4</sub>, which is 30% lighter but provides about 50% more usable capacity than AGM lead-acid batteries. In addition, LiFePO<sub>4</sub> batteries have a ...

View and Download ePropulsion E Series user manual online. E Series battery pack pdf manual download. Also for: E60, E163.

ePropulsion Launches New E-Series Line of Batteries ePropulsion, a global leader and market challenger in marine electric propulsion systems and services, has announced its new range ...

Design The new E-Series batteries feature a HD screen which provides important information about the battery status, charge status, runtime etc.

THE E.LITE-SERIES The E.LITE battery pack is the perfect solution for high-performance applications under extreme conditions - individually tailored ...
