
Eastern European container fast consolidation wholesale

Does GAC China offer cargo consolidation services by sea?

This includes a full range of global consolidation services backed by strategically located hubs in Europe, the Middle East and Asia. GAC China offers cargo consolidation services by sea at competitive rates for both Less-than-Container-Loads (LCL) and Full-Container-Loads (FCL).

How are shipments consolidated?

The shipments are consolidated at a central consolidation centre, loaded into a dedicated container and sent to their destination as a full-container load (FCL). Seller's consolidation services describe the scenario of multiple shipments from the same origin loaded into one FCL container by the seller or supplier.

What is a consolidation service?

Consolidation services organising their supply chain in a leaner and more efficient way. We optimise the utilisation of containers as part of our consolidation services. Dedicated containers are packed and sealed for final delivery at the customer's premises or straight to the end users. We basically turn multiple LCL shipments into FCL shipments.
