
Factory price solar powerbox in Brisbane

How much do solar panels cost in Brisbane?

As a guideline, the cost of solar panels in Brisbane is an average of \$5,530 for a typical 6.6kW system - after the STC rebate has been applied. You can expect to pay less for a 3kW system and more for a larger 10kW system, inclusive of solar rebates.

Which solar power system is best for Brisbane homes?

A 6.6kW solar power system is perfect for Brisbane homes. 6.6kW solar systems typically come with 20 x 330W solar panels, and a 5kW inverter - allowing you to claim 33% more solar rebate than a 5kW system, and also help you to produce more power during low light conditions.

Who is Aussie solar & battery?

Aussie Solar and Battery is your trusted partner for solar products and installation services in Brisbane, Queensland. We offer high quality solar products, including panels, batteries, inverters, and other solar equipment, at wholesale prices.

Are solar batteries a good investment in Brisbane?

The return on investment for solar batteries in Brisbane is currently lower than the return for solar panels. This is mainly due to the fact that the cost of solar batteries is comparatively much higher and there is no rebate available for battery storage in Queensland or federally across Australia.
