Is solar power a smart money move in Nigeria?

Solar power in Nigeria isn't just an eco-friendly trend--it's a smart money move. Frequent blackouts,rising electricity bills,and unreliable power grid connections are prompting an increasing number of households to consider solar energy. But there's always the big question: How much will it cost?

Why should we use solar power in Nigeria?

Nigeria is blessed with so much sunshine,so why not exploit it. Solar power systems use energy from the sun to save people money and resources. The solar panels are made of silicon which is a resource that grows on trees. Without these panels,our planet will be overpopulated with pollutants that harm us in many ways.
