
Folding solar panel support frame

Why should you choose a folding solar panel stand?

Durable material and craftsmanship: The metal material not only gives the folding solar panel stand a solid structure, but also maintains a light weight, ensuring the durability and weather resistance of the product in various climate conditions. The choice of this material reflects the careful consideration of product quality and user needs.

What is a folding solar panel?

A folding solar panel is a portable solar panel that can be folded for easy storage. The surface of the panels have a robust ETFE lamination which helps to absorb more light. It comes complete with crocodile (a.k.a alligator) clips and an extension cable to connect directly to a 12 volt battery.

How do I make a portable solar panel stand?

Upper stand only: Upper + Lower stand: Take any solar panel with an aluminum frame on it, and make it portable. These portable solar panel stands act as legs and work perfectly with a framed solar panel 100 watts or larger.

How to use solar panel mounting frames?

When you reach your destination tilt the solar panels up to face the Sun and watch the output increase substantially. These solar panel mounting frames can be used on any horizontal or vertical surface. Use them on the deck of a narrowboat, the roof of a motorhome, against a wall or simply on the ground.
