
Georgia Solar Power System

How many solar panels are there in Georgia?

There are over 220 solar panel installation companies in Georgia.

Is Georgia a good state to install solar panels?

With higher than average electricity prices and abundant sunshine, Georgia's a pretty great state for solar energy. It may not have the best local solar incentives, but as a Georgian, you can still take advantage of solar's most valuable incentive, the Federal Tax Credit. Here's what you should know about installing solar panels in the Peach State.

How much does solar cost in Georgia?

The levelized cost of power from a typical solar system installed on a home in Georgia over 25 years is 5.2 cents/kWh. This is compared to an average cost of utility power over 25 years of 20.4 cents/kWh. This demonstrates that solar is a more cost-effective way to power a home in Georgia over the long term.

Does Georgia have a solar market?
