
Green solar water pump direct sales price

How much does a solar water pump cost?

A solar water pumping system comes in a wide range of prices, from around \$20 for a small water fountain pump to well over \$1,000 for deep well submersibles or irrigation pumps. The cost will depend on the size and power of the pump, the manufacturer, and the price of additional accessories you may need.

Where can I buy a solar-powered water pump?

Get the AEO solar-powered water pump at Amazon or Walmart. To determine the best solar-powered water pumps, we tested three different models over the course of two weeks, evaluating performance, durability, ease of use, and maintenance.

Who makes solar water pumps?

WBS began producing water pumps in 1998. In 2008, we independently developed and produced solar water pumps. We have OEM production for more than 200 solar pump dealers around the world. Over the past 10 years, we have produced more than 150,000 sets of solar water pumps that have been exported to other parts of the world.
