# High Temperature Resistant Folding Container for Community Use

What is a Feurer insulated container?

FEURER insulated containers offer the ideal solution for the transportation and storage of temperature-sensitive products. Whether food, medical products or sensitive goods - our insulated containers ensure reliable temperature maintenance to keep your products fresh and safe at their destination.

Why should you choose insulated containers?

Whether food, medical products or sensitive goods - our insulated containers ensure reliable temperature maintenance to keep your products fresh and safe at their destination. With high-quality materials and sophisticated design, we combine excellent protection with easy handling and sustainable reusability

Why should you choose a thermocontainer?

Made of resistant EPS and robustly constructed, the thermo container offers high stability and is particularly suitable for the storage and transportation of medical products or perishable goods. Thanks to the flexible sizes and individual adaptations, the Thermocontainer can be tailored to specific requirements.

What types of insulated containers are available?

Our huge selection of shippers includes various sizes of EPS (Expanded Polystyrene), Fiberboard, PUR (Polyurethane) and VIP (Vacuum Insulated Panel) insulated containers. They are sold without refrigerants, but if you need those too, check out our Refrigerants pages here.
