How much does a 10kW Solar System cost in India?

The 10kW solar system price in India ranges between INR 4.5 lakhs and INR 7 lakhs. This price range includes the solar panels, inverter, and other components required to set up the system, but it does not include the cost of batteries for off-grid systems.

How does a 10kW Solar System work in India?

In India, if you have an on-grid 10kW solar system, you may qualify for net metering. This allows you to sell the excess electricity generated by your system back to the grid, earning credits that can be used to offset future electricity bills. Switching to solar power reduces your carbon footprint and contributes to a cleaner environment.
