
Kosovo exports energy storage equipment

What is Kosovo's Energy use?

Kosovo's energy use is driven by households, primarily for wintertime heating. Kosovo's housing stock is largely inefficient and uninsulated.

What is the difference between import and export energy in Kosovo?

Import covers 5-10% of the consumption. Usually, in Kosovo the imported energy is much more expensive than export. This is because Kosovo imports energy one day before needed, in the other hand energy is exported during the night when the demands are under generating level.

Who exports energy drinks in Kosovo?

Frutex is the leading exporting company in Kosovo in food and drink industry. Its energy drinks "Golden Eagle" are well known not only in the regional countries but in Europe and other continents as well. Apart from energy drinks, Relax brand for soft drinks is extremely known as well.

Which companies are affecting the energy sector in Kosovo?

Besides government institutions, there are also companies with great impact in energy sector such as Kosovo Energy Corporation (KEK), Transmission, System and Market Operator (KOSTT) and Kosovo Electricity Distribution and Supply (KEDS). A lot of legislative documents that aim the adjustment of electricity sector have been approved.
