## Kuwait invests 69 2 billion in energy storage batteries

What are Kuwait's long-term challenges?

Kuwait's long-term challenges relate to the economy's dependence on oil and domestic consumption, and slow implementation of diversification plans. Large financial assets underpin Kuwait's economic resilience, but these assets alone cannot substitute for the fiscal and structural reforms that would offset the risks of low oil demand in the future.

How can Kuwait improve liquidity?

In light of this, fiscal reforms to enhance liquidity are critical and introducing the VAT in line with its GCC peers will help diversify revenue. Furthermore, Kuwait should seize the opportunity of the favorable fiscal position to delink the economy from oil and push forward structural reforms.

Will a gas price hike affect Kuwait?

Kuwait has long-term LNG import contracts with Qatar so the gas price hike is not expected to have a major impact. Frequent government changes indicate that political deadlock will continue to hinder structural reform needed to raise potential growth and competitiveness.

Why did Fitch downgrade Kuwait's sovereign rating?

Large financial assets underpin Kuwait's economic resilience, but these assets alone cannot substitute for the fiscal and structural reforms that would offset the risks of low oil demand in the future. Fitch Ratings downgraded its sovereign rating in January due to ongoing political constraints hindering economic reform and debt financing needs.

Its contributions included funding initiatives in solar energy, hydropower, wind energy, and waste-to-energy technologies. These projects have resulted in a significant positive impact, ...

Here is the latest LNG, oil, gas, power and energy news from around the globe. News Desk @ Doha, Toronto, Islamabad & London.

Among them, a remarkable recognition was acquired by lithium-ion batteries as an efficient energy storage unit due to faster-charging capabilities, high specific energy densities, ...

Developing a new drug is a very intensive endeavor, taking time, energy, and usually a considerable amount of financial investment<sup>2</sup>. The cost of developing a new drug varies ...

Pakistani remittances from Saudi Arabia hit \$9 billion, highlighting strong labour, trade, and investment ties between Pakistan and the Kingdom.

He tells Green Pulse that China's dominance of the green energy sector, in the manufacture of solar panels, wind turbines, electric vehicles and battery storage, has made ...

Our ordinary shares are listed on the NASDAQ Global Select Market and on the Tel Aviv Stock Exchange, or TASE (symbol: BCOM). On April 14, 2010, we completed the ...
