
Lisbon Solar Storage Container Hybrid for Highway Use

Can a battery storage project be retrofitted in Portugal?

Published in December, this legal update simplifies the process for retrofitting existing renewable energy projects with battery storage and/or hybrid generation components. Curtailment is no longer a theoretical risk in Portugal.

Is Portugal's renewables sector maturing fast?

Portugal's renewables sector is maturing fast-- but the permitting regime hasn't always kept pace. Retrofitting operational assets with battery storage and hybrid technology offers huge potential, but strict regulations have slowed the progress so far.

Which solar-plus-storage projects are available for public consultation?

The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's Participa portal.

Lisbon-based Endesa subsidiary Newcon40 Unipessoal Lda is developing the Sol de
Évora Photovoltaic Solar Plant which would include a 240.72 MW/481.44 MWh battery ...

3. Deployment Scenarios and Use Cases Solar power containers have demonstrated substantial value across a wide range of applications: Disaster Relief and ...

The Portuguese government has initiated a public consultation for a hybrid project that includes a 339.4-MWp solar plant, a 14.4-MW wind farm, and a 310-MW/620-MWh battery ...

Lisbon power storage Does Portugal need energy storage? From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break ...

A decisive step for grid stability, technological innovation and the national energy transition Hyperion's first battery storage projects in Portugal, located in Estremoz and Évora. ...

Two hybrid projects with more than 630 MWh of battery storage planned in Portugal Lightsource bp is planning an 867 MWp solar and 300 MWh battery energy storage ...

Portugal is increasing its energy storage capacity in order to achieve an 85% renewable electricity supply by 2030. Storage is now essential for assuring round-the-clock ...

Published July 2025 Portugal's renewables sector is maturing fast -- but the permitting regime hasn't always kept pace. Retrofitting operational assets with battery storage and hybrid ...

The Portuguese government has initiated a public consultation for a hybrid project that includes a 339.4-MWp solar plant, a ...

Lisbon's iconic yellow trams zipping through streets powered entirely by stored solar energy. While we're not quite there yet, the Lisbon Energy Storage Project Bidding process for ...
