# London Smart Uninterruptible Power Supply

Who do you partner with for uninterruptible power supplies?

We only partner with suppliers who meet our stringent supply chain standards for quality (ISO 9001), health and safety (ISO 18001), and environmental management (ISO 14001). Browse our full selection of uninterruptible power supplies or contact us today if you have any questions regarding our range. Call 0800 088 5412

What is a Smart-UPS ultra?

Thanks to Smart-UPS Ultra's compact size, back-office network infrastructure support is a breeze. With its out-of-the-way mounting options and increased power, this high efficiency UPS can be installed in edge computing environments, retail or back offices. The ultra-high density Smart-UPS Ultra supplies up to 10,000 watts of power protection.

What is Smart-UPS and how does it work?

Smart-UPS provides availability and manageability to your network allowing you to focus on business growth instead of business downtime. Trusted to protect critical data and equipment from power problems by supplying clean and reliable network-grade power.

What is connected Smart-UPS?

Connected Smart-UPS units boast an ingenious networking feature that makes Smart-UPS even more adaptable and easier to deploy: APC SmartConnect - a feature which allows you to view the status of your UPS through a secure web portal.
