# Manama single glass solar curtain wall customization

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

How does a solar curtain wall work?

This system integrates photovoltaic components (such as solar panels) into the building curtain wall so that the curtain wall not only has traditional enclosure, decoration, and insulation functions but also can convert solar energy into electrical energy, providing green and clean energy for the building. Features: 1.

Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, facade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?
