
Mauritania Energy Storage Hydropower Project

What is Mauritania's dream project?

NOUAKCHOTT, March 27, 2025 - The World Bank Group today approved the Mauritania Development of Energy Resources and Mineral Sector Support Project--known as the DREAM Project --to boost green hydrogen development, expand energy storage, and support critical reforms in the mining sector.

Why should Mauritania invest in a battery energy storage facility?

The project will finance Mauritania's first large-scale battery energy storage facility, enabling the country to harness its abundant solar and wind resources for more reliable electricity. This investment is critical to the success of Mauritania's Mission 300 Energy Compact, which aims to achieve universal access to electricity by 2030.

Will Mauritania become a leader in green energy?

"This project will position Mauritania as a leader in critical minerals, green hydrogen and energy storage, --driving job creation and expanding economic opportunities for all Mauritians," said Demetrios Papathanasiou, Global Director for Energy & Extractives at the World Bank.

Does Mauritania have a hydropower potential?

There isn't much of a hydropower potential in Mauritania. Nevertheless, the country imports hydropower electricity from Manantali hydropower plant. This source can provide 30 MW to Mauritania, mostly for the cities of Bogh and Kaedi. Mauritania aims to increase the share of hydropower electricity to 30% by 2015.
