# N1 Uninterruptible Power Supply

Does N1C provide emergency power supply systems?

In addition to Eaton UPS systems, N1C sales representatives can also supply emergency power supply systems for General Electric UPS Systems, Riello UPS Systems, XPC UPS Systems, and other UPS manufacturers.

What is an uninterruptible power supply (UPS) system?

Uninterruptible power supply (UPS) systems represent a pillar of operational stability in today's digital business climate. Whether you're running a data center, a medical facility, or a retail business, power interruptions can damage equipment, corrupt data, and disrupt critical workflows. Empowering Clients Gives Us Energy.

What is n+1 power supply redundancy?

N+1 redundancy is available with either 2 or 3 power supplies installed in the system. The total available power to the chassis is the sum of all installed power supplies minus that of the largest (for redundancy). This is the default power redundancy mode. Nexus Series power supply redundancy:

What is N1c power & service without parallel?

Power and Service Without Parallel. The first to master the use of Lithium-Ion in the UPS space, N1C is here to lead your organization into the future of uninterrupted power. Our systems provide five times the energy than lead-acid in one-third the space. That's more power where you need it and longer backup times for your critical loads.
