# New Zealand Solar Pump Retrofit Company

Can a Lorentz solar pump help a New Zealand farm?

Remote water sources will never again be a problem for New Zealand farms. With a Lorentz solar pump, you can draw water from anywhere and any source, or work with an irrigation system you already have and operate. With efficient water supply and management in place, good land is used to its full capacity.

What is a solar water pump?

Solar powered pump which runs on electricity generated by photovoltaic panels as opposed to grid electricity or fuel run water pumps and air pumps. Our solar water pump systems for a wide variety of applications e.g domestic water supplies, water transfer, irrigation, livestock watering, swimming pools and industrial pumping applications.

What are the best water pumps NZ has to offer?

The best water pumps NZ has to offer makes use of solar power systems. Increase the supply of water and benefit from the abundance of clean, alternative energy with Lorentz pumps. If you have an excellent water source within your farm that's beyond the reach of any power source, it might well be worth a look.

Who makes able solar water pumps?

Dedicated to optimal efficiency and delivering a complete solution, Able Solar uses and supplies Lorentz solar water pumps - a leading manufacturer and global leader in solar-operated pump systems. Each solar-powered water pumping system is made up of a Lorentz pump end, brushless, 3ph pump motor and a controller.
