Off-grid energy storage containers for mountainous Europe

What is the European energy storage inventory?

A new interactive platform delivers real-time clean energy storage insights as Europe shifts toward sustainable energy sources. Energy storage helps to balance supply and demand. The European Energy Storage Inventory is the first of its kind at European level to show all forms of clean energy storage solutions.

Why should you choose Off-Grid Europe?

Solar-powered cooling halls that fight food waste and boost local economies. Our smart software that optimizes performance and extends system life. Durable energy solutions excelling in harsh conditions and large-scale delivery Innovation is at the heart of Off-Grid Europe.

What services does off-grid Africa offer?

All done by our local Off-Grid Africa team. Our financial services support customers in funding and managing projects. We are able to advise on project finance, export finance, and collaborative financing models to de-risk access to renewable energy systems and to enhance economic feasibility.

Can Off-Grid Europe and off-grid Africa have 24/7 power without diesel?
"I want to express my sincere gratitude to all Off-Grid Europe and Off-Grid Africa team members for their hard work and commitment. Now our factory can have 24/7 power without diesel, saving about 40% in costs per year. This achievement is not only a success for today but also a strong reference point for the challenges and opportunities ahead."
