
Outdoor Micro Base Station Purchase

What is an outdoor macro base station?

This outdoor macro base station supports both GSM-R and LTE -- the ideal solution for railways that want to prepare for evolution to an LTE broadband network. One of the most compact outdoor macro base stations in the industry, it features a large, scalable capacity and multi-mode applications that meet the requirements of long-distance railways.

What is LBA 3 micro UAV base station?

The LBA 3 micro UAV base station adopts a dustproof, waterproof, and corrosion-resistant design, which can be placed outdoors for a long time without fear of wind and sun. It perfectly solves the problem of repeated installation in high-frequency and automated application scenarios, reduces repetitive work, and improves work efficiency.

What is LBA 3 micro base station?

It is below 300m. In the hybrid communication model, LBA 3 can effectively cover the signal-blind area of communication and obtain reliable communication quality. LBA 3 micro base station supports access to CUAVCloud and other UAV cloud platforms, to realize more advanced functions such as UAV management, team collaboration, remote

What is a 4G & 5G LTE base station?

Covering all common 4G and 5G LTE bands, the base stations feature software-defined radio, allowing great flexibility of operation and future upgrade paths. The CableFree Advanced 4G and 5G LTE SDR (software-defined radio) Small Cell Base Station - Outdoor Version - is suitable for a wide variety of applications.

The RTN 360 is Huawei's first full-outdoor V-band device that operates in 59-64 GHz frequency bands (license-free in most areas) and integrates the baseband unit, RF unit, ...

Airspan AirSpeed 1000 outdoor 4G LTE-A base station with wire-line backhaul options is a compact and versatile 4G LTE-A Micro base station ...

Experience CableFree's 4G & 5G LTE Small Cell outdoor base stations with software-defined radio for great flexibility, high performance & low operation costs.

W-TEL-LoRa small cell - Micro base station adopts industrial-grade reliable design and meets IP67 protection level requirements, enabling two-way communication between various LoRa ...

Overview of MNB1200W series outdoor base stations are high-performance integrated base stations based on NB-IOT technology and support band B8/B5/B26.

Hytera's small base station product has an integrated design with small size and easy installation, which can greatly reduce the customer's CAPEX and OPEX. The portfolio is divided into two ...

SageRAN Unity(TM) 5G Integrated Base Station is based on the advanced multi-core ARM and FPGA scheme, and adopts the integrated design method of 5G BBU and RRU. ...

Airspan AirSpeed 1000 outdoor 4G LTE-A base station with wire-line backhaul options is a compact and versatile 4G LTE-A Micro base station that provides the outdoor Micro layer of a ...

SageRAN Unity(TM) 5G Integrated Base Station is based on the advanced multi-core ARM and FPGA scheme, and adopts the integrated ...

Industrial Protection Design to Meet Outdoor Operations The LBA 3 micro UAV base station adopts a dustproof, waterproof, and corrosion-resistant design, which can be ...
