# Outdoor wind power base station manufacturers ranking

Who are the top 10 wind power manufacturers?

Including Vestas, NextEra, Suzlon, Adani Green Energy and GE Vernova, this Top 10 runs through the world's leading wind power manufacturers. Wind power is a leading solution as the world increasingly turns to renewable energy to combat climate change and ensure energy security.

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

Who is the best wind turbine supplier outside China?

Vestas, which held the third spot until 2023, has slipped to fifth place. However, the Danish multinational remains the leading wind turbine provider outside China, with 10.2 GW installed. Siemens Gamesa stands out from eighth place as the top offshore wind turbine supplier.

Who is the largest wind turbine manufacturer in 2025?

1. Top 15 Largest Wind Turbine Manufacturers in 2025 (according to installed capacity) 1.1. Vestas (Vestas Wind Systems A/S) Vestas Wind Systems A/S (Vestas) is the largest wind turbine manufacturer/supplier in the world with an installed capacity of more than 189 GW including 10 GW of offshore wind turbines.

Lxelec delivers reliable 2-5G base station and DAS antennas with strong export capability, competitive pricing, and broad technical coverage.

However, in just over a decade, the market has shifted dramatically. Today, China dominates the ranking of the world's largest wind turbine manufacturers, securing the top three ...

Explore leading 5G equipment manufacturers for modems, base stations, RAN, and core networks. Discover vendors enhancing network speed and efficiency.

Wind turbine manufacturers reached a record high in 2023, according to the Global Wind Energy Council's (GWEC) annual Supply ...

Wood Mackenzie's latest report on global wind turbine original equipment manufacturers (OEMs) reveals that Chinese companies ...

The DAMM Outdoor System is the most user-friendly, flexible and cost-effective TETRA infrastructure system available. With its high reliability ...

In the mobile network exhibition area, 5G AIO (innovative integrated 5G indoor and outdoor base station), AirScale Levante high-performance baseband, and ASOF's new ...

---

However, in just over a decade, the market has shifted dramatically. Today, China dominates the ranking of the world's largest ...

Check out our blog for the best wind turbine manufacturers, including the largest OEMs in the wind industry and leading wind power generation companies.

Wind power is one of the most promising and rapidly growing sectors in renewable energy. ?In this article, we will highlight 16 interesting ...
