## Portable DVD with built-in power supply

Is dbpower a good portable DVD player?

The DBPOWER 11.5" is a dependable portable DVD player ideal for frequent travelers. With a perfect size-to-portability ratio, break-point resume, micro-HDMI output, and quiet, skip-resistant playback, it emphasizes reliability over flashy features. Its thoughtful design and long power cable ensure consistent, hassle-free use wherever you go.

How long does a dbpower DVD player last?

A built-in 2500 mAh rechargeable lithium battery ensures 5 hours of video playback.

DBPOWER 11.5" Portable DVD Player equipped with three power supplies - built-in battery, car charger, and AC power adapter, hence it serves for a long period of time before having to recharge.

What is a portable DVD player?

A portable DVD player is a compact, self-contained device that allows users to play DVDs and other digital media on the go. Designed to be lightweight and easy to use, these players are perfect for road trips, travel, or outdoor activities. Typically, a portable DVD...

How often should I charge my dbpower portable DVD player?

The correct voltage is 110V 50HZ. Please charge the device at least once a month even during a long period of unuse, this will extend battery life and endurance. DBPOWER 11.5" Portable DVD Player, 5-Hour Built-in Rechargeable Battery, 9" Swivel Screen, Support CD/DVD/SD Card/USB, with Remote control, 1.8M Car Charger and Power Adaptor.
