## Price quote for 10kW collapsible containers used at Russian airports

Are collapsible containers airworthy?

Yes, all our collapsible containers comply fully with civil aviation regulations. They are completely airworthy, and they can be restrained directly by the Cargo Loading System of any compatible aircraft. Are special tools needed to operate a collapsible ULD? You don't need any special tools to operate our collapsible containers.

What is a collapsible container?

Collapsible containers can be used to transport cargo in the usual way, but they can also be folded and stacked when you need to store or reposition them. This feature maximises your ULD storage capacity and lets you relocate empty ULDs more efficiently and cost-effectively, which in turn helps rebalance ULD stocks around the world.

Should you use a collapsible & stackable container?

Finding sufficient storage space in various locations around the world is a constant frustration for ULD fleet managers, particularly when containers are empty. But with a collapsible and stackable container there's a way to dramatically reduce the amount of valuable space your containers take up when they're not being used.

What determines the final container price for international shipping?

There are a number of different elements that define the final container price for an international shipping. Some key factors are: The type of container required: 20ft, 40ft, 40ft HC... all depends on your needs The Incoterm used in the contract will define which part (exporter or importer) pays each transport service

Prices increased 0.5 percent in the June 2025 quarter, compared with the March 2025 quarter, and rose 2.7 percent in the 12 months to June 2025.
