
Saudi Arabia solar container outdoor power quotation

Does Saudi Arabia need solar energy?

The energy sector in Saudi Arabia is undergoing a significant transformation, moving away from its traditional reliance on fossil fuels. As of 2021, the country's electricity generation mix comprised 60.55% natural gas and 39.22% oil, highlighting the substantial opportunity for solar energy integration.

Who are the leading solar energy companies in Saudi Arabia?

The Saudi Arabian solar energy market is led by prominent players, including ACWA Power Company, Alfanar Group, Abu Dhabi Future Energy Company (MASDAR), EDF Renewables, and Saudi Electricity Company.

How does Saudi government finance solar projects?

The government has also introduced supportive financing mechanisms through the Saudi Industrial Development Fund (SIDF), which launched a USD 28 billion fund to support solar installation projects and manufacturers, offering long-term financing options extending up to 20 years.

How much sunlight does Saudi Arabia receive a day?

The country's natural geographical advantages significantly complement these policy initiatives, with Saudi Arabia receiving an average of 8.9 hours of daily sunshine and horizontal solar radiation of 5,600 Wh/m².
