## School uses Amsterdam folding container low-pressure type

What is Amsterdam's largest student housing complex?

Launched in 2005 as a trial, a city built from repurposed shipping containers has grown into Keetwonen, Amsterdam's largest student housing complex. Today, it's home to approximately 2,500 students.

Can shipping containers be used for urban housing?

At least from a design and a construction standpoint, the Keetwonen project has proven that repurposing shipping containers for urban housing is both possible and can serve as a model for addressing challenges posed by limited space and tight budgets within cities facing a lack of accommodation options.

How much does student housing cost in Amsterdam?

Each unit, measuring around 28 square meters, provides a private bathroom, kitchen, and balcony, a desirable combination for students. This price point is significantly lower than the average student housing costs in Amsterdam, which often fall between 800 and 1200 euros monthly.
