
Selling solar systems in Eastern Europe

Which European countries have the most solar PV markets in 2024?

SolarPower Europe has unveiled the top 10 solar PV markets for 2024, with Spain maintaining a leading position in Europe. In 2023, Spain installed nearly 9 GW of solar capacity, a 5.8 percent increase from 2022, solidifying its status as the second-largest solar market in Europe after Germany.

How will Europe's Solar EPC market grow?

The European efforts in reducing the greenhouse gas emissions and shifting towards renewable energy sources are increasing the demand for solar energy investment. The adoption of hybrid solar systems, which integrate other renewable energy sources along with solar PV, will fuel the European solar EPC market growth.

What is SolarPower Europe?

SolarPower Europe is the award-winning link between policymakers and the solar PV value chain. Get to know the SolarPower Europe team working to transform the European energy system. Is solar energy a viable option in Europe?

Even with supply-chain fluctuations, solar remains one of the most cost-effective forms of new electricity generation in many European markets. As a result, solar energy is no longer an option only for large utilities or wealthy households--it is becoming increasingly accessible to a wider range of consumers and businesses.

2. Key Challenges in 2025

26 June 2025 Europe's Solar Energy Market in 2025: Challenges and Opportunities Over the past decade, solar energy has become a ...

A solar heating system is composed of: solar collectors, roof-mounted elements that collect energy from the sun, a hot water tank to store the water heated by the system, a ...

The analysis assumes that full and free net metering but does not include any feed-in tariff or subsidy scheme. The results highlight the increasing competitiveness of PV. On this ...

The European solar PV market size crossed USD 63.1 billion in 2024 and is set to register at a CAGR of 7.1% from 2025 to 2034, due to the growing ...

The adoption of hybrid solar systems, which integrate other renewable energy sources along with solar PV, will fuel the European solar EPC market ...

A new era for solar energy is dawning in Eastern Europe: According to the European industry association SolarPower Europe, ...
