
Slovakia glass solar module panels

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea - to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

Will a 150MW solar module factory be built in Vranov?

From pv magazine Germany Slovakia-based Agora Solar a.s. is planning to set up a 150MW solar module factory in Vranov, in the eastern part of the country. The company said it has already identified a suitable building in an industrial park located in the area and that production capacity may eventually reach 500MW by 2024.

Where is Agora solar building a 150MW factory?

Slovak manufacturer Agora Solar is planning to build a 150MW factory in Vranov, in the eastern part of the country. The facility will produce glass-glass panels and may reach a capacity of 500MW by 2024. The factory's halls are currently being used to collect and distribute donations of clothes and goods for refugees from Ukraine.

The company specializes in the design and implementation of photovoltaic power plants and systems, offering a wide range of photovoltaic equipment, including solar panels. They also ...

Slovak manufacturer Agora Solar is planning to build a 150MW factory in Vranov, in the eastern part of the country. The facility will produce glass-glass panels and may reach a capacity of ...
