RWE reaches major construction milestone at Sofia Offshore Wind Farm with completion of foundations installation. Picture: RWE.

Will Sofia Wind Farm achieve clean power by 2030?

Energy Minister Michael Shanks said: "It is great to see this exciting milestone reached for the Sofia offshore wind farm. Today takes us a step closer to achieving our mission for clean power by 2030, with over a million homes expected to be powered by the cutting-edge turbines of Sofia wind farm.

How many offshore turbines have been installed at Sofia?

So far at Sofia, more than half of the offshore turbine foundations have been installed, the offshore converter station, onshore substation, and onshore and offshore export cables are also in place, in preparation for first generation later this year.

Why should we invest in Sofia & Van Oord?

This achievement is a testament to the expertise, dedication, and collaboration of the entire RWE team and our partners. Sofia will play a critical role in contributing to the UK's clean energy transition and reinforcing energy security." The installation works started in May 2024 using Van Oord's jack-up vessel Aeolus.
