We can help realise the goal of affordable and reliable power provision for all of Cambodia's energy users, ranging from industrial scale business developments to residential home users.

Is solar power transforming remote communities in Cambodia?

Solar power is transforming remote communities in Cambodia with affordable, renewable energy and the chance to live more productive lives. However, hundreds of other villages remain off the grid, and energy experts say Cambodia should be doing more to harness the country's immense amount of untapped sunlight.

Where are solar power plants located in Cambodia?

Currently, solar power plants providing a total of 160 mW are located in Bavet city, Svay Rieng province, Kampong Speu province, and Kampong Chhnang province. Cambodia's existing solar power stations are already generating energy and linked to the grids.
