
Solar power storage batteries in Switzerland

Where is the largest battery storage system in Switzerland?

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Primeo Energie will use our storage system to provide energy flexibility.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

Is MW Storage the country's largest battery storage project?

MW Storage is a developer of BESS projects which is also active in the German market, with a 100MW/200MWh project underway that it claimed is the country's largest. The inauguration ceremony for the BESS project. Image: EWS AG. EWS AG and MW Storage have expanded a battery storage project in Switzerland to 28MW, making it the country's largest.

Everything you need to know about adding battery storage to your solar PV system in Switzerland. This in-depth guide covers top brands, costs, sizing, subsidies, installation, ...

This isn't science fiction - it's the reality for 15% of Swiss homeowners who've already installed battery storage systems. As Europe's unofficial "battery lab", Switzerland is pioneering energy ...

The Switzerland solar energy and battery storage market is witnessing significant growth driven by increasing investments in renewable energy sources and government initiatives promoting ...

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

Trade body Swissolar has called for a national energy storage strategy to support the rising popularity of home solar-plus-battery ...

The project in Ingenbohl, Switzerland. Image: EWS AG. Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system ...

The company specializes in renewable energy solutions, focusing on the planning, realization,

and maintenance of solar systems and energy storage solutions. They provide a turnkey ...

Trade group Swissolar has called for a national energy storage strategy to support the growing popularity of home solar-plus-battery systems in Switzerland. May 16, 2025 ...

The Swiss home solar energy storage market is projected to reach CHF 1.5 billion by 2030, driven by rising electricity prices, government incentives, and advancements in ...

Around every second PV system in Switzerland is now installed with a battery storage system. They enable more flexible use of local solar power, stabilize the electricity grid ...
