# Special plan for promoting energy storage projects

What is the "Special Action Plan" for new energy storage?

The 'Special action plan for large-scale construction of new energy storage (2025-2027)' was published last Friday (12 September), formulated jointly by the country's National Development and Reform Commission and National Energy Administration (NEA).

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

What is the energy storage plan?

The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, and improving standardization. It also emphasized talent development and enhancing international cooperation in the sector.

What is the NDRC "Special Action Plan"?

The "Special Action Plan for Large-Scale Construction of New Energy Storage(2025-2027)" released by the National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) outlines a roadmap to scale up energy storage to support the country's rapidly expanding renewable energy capacity.

China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ...

China has published plan to promote large-scale energy storage facilities, encouraging investment and electricity market participation.

Foreword Stepping up efforts to develop new energy storage technologies is critical in driving renewable energy adoption, achieving China's 30/60 carbon goals, and ...

China aims to add more than 100 GW of new energy storage (primarily battery storage, excluding pumped hydro) by 2027, according to a new action plan presented by ...

We would promote innovation in the local legislative system for hydrogen energy and promote the management of hydrogen energy as an energy source. We plan to build ...

An action plan is issued, aiming to build a growth engine such as new generation information technology and new energy, and promote the high-quality development of new ...

Recently, the National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) have jointly released the Special Action Plan for Large ...

---

Encourage local governments to introduce special policies to support technological progress in new-type energy storage system manufacturing as well as the transformation and upgrading of ...

The National Development and Reform Commission and the National Energy Administration issued the "Special Action Plan for Large-Scale Construction of New Energy Storage ...
