
Telecom solar container system

What are containerized solar power solutions for the cellular industry?

Our Containerized Solar Power Solutions for the Cellular Industry are engineered to run 100% on solar power. They are equipped with battery storage and a AC or DC generator as an additional backup system to guarantee service continuity. All systems can be grid-tied or completely off-grid.

What is a containerized Solar System?

Our solar systems are designed and built to be turn-key with full remote monitoring and control. Our Containerized Solar Power Solutions for the Cellular Industry are engineered to run 100% on solar power. They are equipped with battery storage and a AC or DC generator as an additional backup system to guarantee service continuity.

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.

What is a solar cell tower micro-grid?

Sun-in-one turnkey containerized solar cell tower micro-grids provides a clean, reliable, affordable alternative to diesel generators for the telecom industry. Sun-In-One(TM)'s telecom solar power systems are engineered with three to five days of battery storage compared to other companies that have only one day or less of battery storage.

You simply add another unit. This makes the solar battery container an ideal choice for businesses that anticipate growth but don't want to over-invest in infrastructure on ...
