
The latest news from large energy storage companies

Which companies have energy storage projects?

Quidnet Energy, ENBW, and Peak Energy have energy storage projects in the works in the U.S. and Europe. Google has partnered with Energy Dome to scale long-duration carbon dioxide battery storage to advance its carbon-free goals. Tesla's \$3.4 billion battery project with LG Energy leads tech business news this week, along with moves by Toshiba,...

Which companies have been a leader in energy storage?

Navitas, Toshiba, Porsche, ChargePoint, Richardson Electronics, and Landis+Gyr have made notable shifts in leaders, strategies, partners, and... Quidnet Energy, ENBW, and Peak Energy have energy storage projects in the works in the U.S. and Europe.

Is China entering a new era of energy storage demand?

Mainland China accounts for most of the global energy storage demand, driven in the near term by regional requirements for new utility-scale wind and solar projects to include energy storage capacity. However, the Chinese market is entering an era of change.

Will energy storage capacity expand by 2030?

According to the International Energy Agency (IEA), to meet the increasing global energy demand, storage capacity must expand to 1,500 gigawatts (GW) by 2030. It also projects that 90% of this should come from batteries alone. However, current trends in the energy storage industry are creating a different picture.

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

Briefs: Hydrogen for Fuel, Storage Systems and Microgrids GM, Hive Energy, Hyting, Energy Vault, and PG&E are addressing hydrogen's varied advantages and challenges.

bGen was selected as the thermal energy storage system for a large-scale solar energy project led by a top European utility company ...

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

The article discusses top 10 energy storage companies that are working on new solutions to support global energy needs.

The battery storage industry in the U.S. has grown in leaps and bounds in recent years, surpassing its most aggressive targets to become one of the largest new sources of ...

In this edition of the Energy-Storage.news US news roundup, EticaAG partners with Shell on battery immersion tech, Pacific Northwest National Laboratory begins utility-scale ...

A new, large scale iron-sodium energy storage system will be manufactured in the US, helping to support more wind and solar in the grid.
