# Tokyo Energy Storage Project 2025

Who buys a battery energy storage system in Japan?

Gore Street Capital's Japanese fund buys its first battery energy storage system (BESS) project, while Ireland's GridBeyond begins energy trading in Japan with front-of-the-meter asset.

Is gridbeyond entering energy trading in Japan with a front-of-the-meter battery asset?

GridBeyond has entered energy trading in Japan using a front-of-the-meter battery asset.

Announced at the Ireland Innovation Seminar hosted at the Embassy of Ireland in Tokyo, GridBeyond and Japanese partner PORT Inc have brought a 2 MW/8MWh BESS online in Gunma Prefecture.

Is a 20 mw/80 MW project eligible for Japan's decarbonization auction?

The fund has acquired a 20 MW/80MWh project in Kasama City, Ibaraki Prefecture. The Kasama project has been sized to qualify for Japan's long term decarbonization power source auction, a support program similar to capacity markets seen in other countries, according to Gore Street Capital.

Will Kasama project qualify for Japan's long-term decarbonization power source auction?

The Kasama project has been sized to qualify for Japan's long term decarbonization power source auction, a support program similar to capacity markets seen in other countries, according to Gore Street Capital. This would allow the project to secure long-term contracted income to complement a predominantly merchant revenue model.

A total of 27 projects was awarded 34.6 billion yen in subsidies through METI's FY2024 program for supporting the expansion of ...

Pacifico Energy commissioned its first unsubsidized grid-scale battery storage project in Japan, a 2MW/10MWh facility in Koganei City, Tokyo, on December 9, 2025.

The Tokyo Energy Storage Phase II project isn't just another battery installation; it's sort of the linchpin for Japan's 2030 carbon neutrality goals. By 2026, this 820MWh facility will store ...

Gore Street Capital's Japanese fund buys its first battery energy storage system (BESS) project, while Ireland's GridBeyond begins energy trading in Japan with front-of-the ...

Gore Street Capital's Japanese fund buys its first battery energy storage system (BESS) project, while Ireland's GridBeyond begins ...

Battery storage developer Eku Energy has partnered with utility Tokyo Gas on a grid-scale energy storage project in Japan, with construction expected to start soon.

Tokyo, Japan - February 24, 2025 -- Sungrow, a global leading PV inverter and energy storage system provider, is set to unveil its latest energy storage and power conditioning systems ...

---

The project, which began construction in May 2025, officially started operating on December 9, 2025. This standalone battery storage facility is strategically positioned within the ...

2025.12.09 PACIFICO ENERGY COMMENCES OPERATION OF GRID-SCALE BATTERY STORAGE -- Self-funded "Full Merchant" Project Marks Entry into the Tokyo Power Market -- ...

Ekü Energy COO Tom Best at a ceremonial event to mark the start of construction at the 30MW/120MWh Hirohara BESS in September 2024. Image: Ekü Energy Japan's energy ...
