# Tokyo Power Grid Energy Storage Supplier

What is Tokyo's new battery energy storage system?

This battery energy storage system will be the first to be newly constructed in Tokyo and has been selected for the Tokyo Metropolitan Government's Project to Support the Introduction of Grid-Scale Batteries with an Eye on Expanding the Adoption of Renewable Energy.

What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

Will Kamigumi build Tokyo Uminomori battery energy storage system?

Kamigumi to build Tokyo Uminomori Battery Energy Storage System for grid-scale battery business

Why is Sumitomo launching a large-scale energy storage platform?

One of the main reasons is the insufficient capacity of transmission lines. In response to this issue, Sumitomo Corporation aims to expand its business of storing energy nationwide in Japan by developing a large-scale energy storage platform that can compensate for this lack of transmission line capacity.

Pacifico Energy commissioned its first unsubsidized grid-scale battery storage project in Japan, a 2MW/10MWh facility in Koganei City, Tokyo, on December 9, 2025.

Kamigumi to build Tokyo Uminomori Battery Energy Storage System for grid-scale battery business This page provides lists news ...

The system is scheduled to commence operation in fiscal year 2029. By connecting to the power grid in the Tokyo area for charging and ...

Japan-headquartered NGK Insulators is the manufacturer of the NAS sodium sulfur battery, used in grid-scale energy storage systems ...

As one of the solutions to this issue, there is growing interest in the energy storage business, which connects large storage batteries to the power grid and adjusts the surplus or ...

With this operation, Pacifico Energy has entered the Tokyo power market--its third regional market following Hokkaido and Kyushu. By operating across multiple regions, the ...

A grid-scale battery storage project in Hokkaido, northern Japan, the only region of the country where energy storage is required for new renewable energy projects. Image: ...

ITOCHU, Osaka Gas and Tokyo Century will help accelerate the adoption of renewable

---

energy, support the stability of the power grid, and work to realize a decarbonized ...

Kamigumi to build Tokyo Uminomori Battery Energy Storage System for grid-scale battery businessThis page provides lists news releases for Kamigumi Co., Ltd., in 2025.

Its energy storage systems complement solar panel installations which allow homeowners to store excess energy and ...
