What is a photovoltaic power plant in Tunisia?

In Tataouine, in the governorate of Tunisia that goes by the same name, a photovoltaic power plant is in operation that can reach a maximum installed capacity of 10 MW to supply more than 20 GWh of energy per year to the national grid. The plant is equipped with a solar tracking system that optimises the energy that is produced.

Will Tunisia be able to generate 30% of its electricity by 2030?

Tunisia has a target of generating 30% of its electricity from renewable energy sources by 2030. The south of the country, where our Adam and Tataouine power plants are located, is an ideal area for solar power generation.

How will Tunisia's energy reforms impact the economy?

"The program's reforms--such as reducing technical and commercial losses and increasing the share of renewables--are expected to deliver lasting improvements in the operational and financial performance of the sector, making electricity more affordable and reliable for households and businesses across Tunisia."

How will the World Bank support Tunisia?

New \$430 million World Bank-supported program to support Tunisia's efforts to expand renewable energy, improve electricity reliability, and strengthen sector governance.

New \$430 million World Bank-supported program to support Tunisia's efforts to expand renewable energy, improve electricity reliability, and strengthen sector governance.

Tunisia's ambitious plan to increase renewable energy production is geared toward reducing its overreliance on imported gas for its power generation that threatens its energy ...

We are 50% operators of the Tataouine photovoltaic power plant in Tunisia, which is connected to the national grid. The construction ...

TUNIS, May 9 (Xinhua) -- Chinese companies on Wednesday broke ground on a 100-megawatt photovoltaic power station in central Tunisia's Kairouan Province, the largest photovoltaic ...

Dubai-headquartered developer Amea Power has commissioned a 120 MW solar project in Tunisia, the country's largest to date.

A 120 MWp solar PV facility delivering clean electricity into STEG's 225 kV high-voltage network, reducing the country's dependency on energy imports. Kairouan - AMEA ...

We are 50% operators of the Tataouine photovoltaic power plant in Tunisia, which is connected to the national grid. The construction of the plant is due to the joint venture entered ...

The 120 MW Kairouan Solar PV project is being implemented by Kairouan Solar Plant, a project company registered in Tunisia and fully owned by AMEA Power. The project ...

In her speech, Fatma Tabet Chiboub said that the Kairouan photovoltaic project is the first large-scale ground photovoltaic power station in Tunisia, and also the largest single ...

A 20-year power purchase agreement with Soci t  Tunisienne de l'Electricit  et du Gaz (STEG), Tunisia's state-owned national electricity and gas utility company, was signed in ...
