Are solar air conditioners a good choice?

Solar air conditioners are as effective as their traditional counterparts. They will keep you just as cool and comfortable. Hybrid systems utilize electricity when your solar battery drains, so you don't have to worry about cloudy days or running the AC at night.

What is a solar AC system?

Most solar AC systems are hybrid, meaning they use traditional electricity sources in addition to solar power. Hybrid systems are more popular in very hot environments where it's necessary to run the AC at night (when there's no sun) to keep comfortable. For complete off-the-grid air conditioning, there are solar-only systems.
