
Wireless outdoor base station AP forgot the battery

How do I remove the outdoor sensor from the base station?

1. Bring the outdoor sensor in from outdoors and place it approximately 1-3 metres away from the base station. 2. Remove all batteries (this includes the outdoor sensor/sensors and the base station) and allow all items to completely drain for approximately 20 minutes.

How do I reconnect my outdoor sensor to the base station?

There are steps below that will assist you in getting the sensor to reconnect with the base station and in most instances will rectify the issue without any further steps needed. 1. Bring the outdoor sensor in from outdoors and place it approximately 1-3 metres away from the base station.

What is the TP-Link outdoor wireless base station?

The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users. Two external RP-SMA antenna interfaces allow the Outdoor Wireless Base Station to integrate seamlessly with TP-LINK's line of sector and dish antennas.
